HDD SATA 18TB WD181KFGX WD RED PRO NAS 7200 RPM 512MB

Naziv:	HDD SATA 18TB WD181KFGX WD RED PRO NAS 7200 RPM 512MB
Slika:	
Šifra:	#BM4196021740197072695
Barkod:	0718037875729
Proizvođač:	WD

Detalji

Kategorija:	HARD DISKOVI
Oznake:	Proveri dostupnost
Atributi:	FORMAT: 3,5 " KAPACITET DISKA: 18 TB KEŠ MEMORIJA: 512 MB BRZINA OBRTAJA: 7200RPM

Cena

Cena sa PDV:	513,496.20 RSD *WEB CENA 564,845.82 RSD *Cena za odloženo web plaćanje

Ostalo

Opis:

Brand	WD
Series	Red Pro
Model	WD181KFGX

Performance

Interface	SATA 6.0Gb/s
Capacity	18TB
RPM	7200 RPM
Cache	512MB

Features

	3D Active Balance Plus Our enhanced dual-plane balance control technology significantly improves the overall drive performance and reliability. Hard drives that are not properly balanced may cause excessive vibration and noise in a multi-drive system,

Features	reduce the hard drive life span, and degrade the performance over time. Error Recovery Prevention Built specifically for RAID and NAS environments, WD Red Pro drives come equipped with error recovery controls as part of NASware 3.0 technology to help reduce drive fallout in RAID applications. Extended Drive Testing A NAS environment that has up to 24 bays is very demanding on a hard drive with added vibration and heat. This is why every WD Red Pro drive is shipped with extended thermal cycle burn-in testing to help ensure each drive is tested for extended reliable operation. Desktop drives vs. WD Red Pro Do right by your NAS and choose the drive purpose-built for NAS with an array of features to help preserve your data and maintain optimum performance. Take the following into consideration when choosing a hard drive for your NAS: - Compatibility: Unlike desktop drives, these drives are specifically tested for compatibility with NAS systems for optimum performance. - Reliability: The always-on environment of a NAS or RAID is a hot one, and desktop drives aren't typically designed and tested under those conditions like WD Red Pro drives are. - Error Recovery Controls: WD Red Pro NAS hard drives are specifically designed with RAID error recovery control to help reduce failures within the NAS system. - Noise and Vibration Protection: Designed to operate solo, desktop drives typically offer little or no protection from the noise and vibration present in a multi-drive system. WD Red Pro drives are designed to thrive in multi-bay NAS system environments.
Usage	Enterprise NAS Hard Drives

Dimensions

Form Factor	3.5"
Height (maximum)	26.10mm
Width (maximum)	101.60mm
Length (maximum)	147.00mm
